

Works update, Calvert

September 2020 | www.hs2.org.uk

Notification

High Speed Two (HS2) is the new high speed railway for Britain. We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. The Government's current strategy makes it clear that construction activity can continue as long as it complies with this guidance. Please be assured that only sites that can operate within the guidelines are operational. All sites will remain under constant review. We have postponed all face-to-face engagement events and meetings and have put in place a number of channels to communicate with communities, such as letters and phone calls, as well as updates and alerts from each of the local community websites. You can sign up for regular updates in your local area at www.hs2inbucksandox.co.uk

In the coming weeks we will be holding two webinars focused on our works in the Calvert area. These will be on the following dates:

- **Wednesday 14 October 18:00-19:00hrs**
- **Wednesday 18 November 18:00-19:00hrs**

Registration information for these events will be available from 1st October on the local website, www.hs2inbucksandox.co.uk

What will be doing in your area?

In late 2020 we will start our main construction works for the railway. Ahead of this we plan to undertake several site preparation activities.

The High-Speed Rail (London - West Midlands) Act 2017 includes Environmental Minimum Requirements and a Code of Construction Practice which sets out how we undertake our construction activities.

Substantial ecological surveys have taken place in this area since 2012. We come back and survey every two years to ensure the results are valid and up to date.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

Duration of works

Site preparation works continuing until April 2021.

Normal working hours:

Mon to Fri 8am – 6pm

Saturday 8am - 1pm

What to expect

Some additional traffic on local roads.

Noise from machinery used for the works.

Off peak temporary traffic signals when removing roadside vegetation.

Site compounds with 24-hour site security and temporary lighting

What we will do

Manage the works to minimise disturbance.

Works update, Calvert

Notification

www.hs2.org.uk

These surveys have provided a detailed understanding of the ecology in the area and allowed us to develop plans for translocating the ecology ahead of removing vegetation.

Future construction in this area will include work to reduce the volume of construction traffic on local roads:

- Constructing an access road from the West Street construction site compound (where the workforce is based) to the East-West Rail Overbridge.
- Constructing other access roads and associated works near the Calvert Road compound
- Preparation works for compounds and bridge works which include ground investigations and test piling. Both activities will help us understand the ground conditions in the area

We will be writing to you soon with further information on these works to keep you up to date.

Over the coming weeks we will continue our site preparation activities, including vegetation clearance, which began in September 2019. You may have already seen our teams undertaking ecology surveys ahead of any work taking place. Where vegetation needs to be removed it will be undertaken by our arboricultural team using machinery.

Where required we will also need to erect fencing in this area to help secure the site and keep the public safe from our works when they take place.

Where our works are adjacent to public roads, we may require temporary traffic signals to be in place.

Small site compounds will be set up next to work areas. The compounds will include 24-hour security and temporary lighting.

Tree Planting

A significant programme of tree planting will continue to take place in the Sheephouse Wood and Decoypond Wood area from mid-November 2020 into the planting season of 2021.

We will be planting trees 1.75 - 2.5 metres in height to establish new bat flight path lines within these areas. There will be approximately 75,000 transplant whips, container grown trees and shrubs planted which will be a mixture of native trees and shrub species which complement the current species within the surrounding countryside.

What consents do we have to undertake this work?

There have been extensive ecological and tree surveys undertaken across the vegetation identified for clearance. Following this, we put together a plan to create new habitats in the area.

Before any vegetation is cleared it will be thoroughly inspected by qualified ecologists. Any protected species found to be present will be recorded and no vegetation will be cleared until the species have left the site. The vegetation clearance will be undertaken in accordance with:

HS2 Organisational European Protected Species Licence for Crested Newt WML025. First issued March 2017.

HS2 Organisational European Protected Species Licence for Badger WML024. First issued February 2018.

HS2 Organisational European Protected Species Licence for Bats (Bernwood) WML-OR32. First Issued April 2019.

Further details are available online.

www.gov.uk/government/publications/hs2-phase-one-environmental-statement-volume-5-ecology

The work on HS2 is guided by High-Speed Rail (LondonWestMidlands) Act 2017.

www.legislation.gov.uk/ukpga/2017/7/contents/enacted

How this might affect you?

We will be working hard to ensure any impact on residents is kept to a minimum during these and all works. You may notice some extra traffic on the roads immediately around the sites with workers moving to and from the site.

You may notice some noise from the machinery while our work is taking place. Our normal working hours are between 8:00am and 6:00pm Monday – Friday and 8:00am – 1:00pm Saturdays. The site will be open an hour either side of these times for the workforce to start up and shut down.

Public Rights of Way

Public Rights of Way (footpaths) that cross the work area will be closed for the duration of the works. This will help us keep residents safe from our machinery while the clearance takes place. Any closures will be sign posted and more information will be on www.hs2inbucksandox.co.uk

How will you ensure that you do not affect nesting birds and other ecology?

Following local feedback this work has been planned to take place after the bird nesting season. Prior to any vegetation removal, an ecologist will survey the area to be cleared for ecology and record any findings.

The findings from these surveys, along with data from surveys from the previous five years, are used to identify those areas that can be cleared and those which cannot yet, due to the presence of protected ecology.

Any vegetation that cannot be removed due to the presence of protected ecology will be left until further surveys confirm that the ecology is no longer present.

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route. www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents' Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at: www.gov.uk/government/collections/hs2-ltd-residents-commissioner

You can contact the Commissioner at: residentscommissioner@hs2.org.uk

Construction Commissioner

The Construction Commissioner's role is to mediate and monitor the way in which HS2 Ltd manages and responds to construction complaints. You can contact the Construction Commissioner by emailing: complaints@hs2-cc.org.uk

Property and compensation

You can find out all about HS2 and properties along the line of route by visiting: www.gov.uk/government/collections/hs2-property
Find out if you're eligible for compensation at: www.gov.uk/claim-compensation-if-affected-by-hs2

Holding us to account

If you are unhappy for any reason you can make a complaint by contacting our HS2 Helpdesk team. For more details on our complaints process, please visit our website: www.hs2.org.uk/how-to-complain

Contact Us
